**Find Cancer Early resources** (GL Code 801.6411.00)

Tell your doctor if you have any of these symptoms:

- If you ever find blood in your pee
- Waking frequently at night to pee
- Sudden or urgent need to pee
- Difficulty starting or stopping peeing
- Slow flow
- Pain when you pee
- Unexplained weight loss

These symptoms might be due to prostate cancer and the earlier it's found, the greater the chance of successful treatment.

For more information visit: [www.findcancerearly.com.au](http://www.findcancerearly.com.au)

**Cancer Symptom Postcards**

We offer 6 varieties of postcards featuring images of regional men and women, plus a plain language checklist of the signs and symptoms of the four common cancers: bowel, lung, prostate and breast.

We also have an indigenous version of the checklist featuring donated artwork from a Goldfields artist.

**'Excuses' Postcards**

It is easy to make excuses for signs and symptoms and for not telling the doctor about them.

These 3 Postcards include strategies to help people overcome excuses they may make for:

- Ignoring their symptoms;
- Not making an appointment with their doctor; or
- Not talking to their doctor.

**Are you over 40?**

Have you had any of these...

- ... for more than 4 weeks?**
  - Blood in your poo
  - Problems peeing
  - Looser poo
  - Unexplained weight loss
  - An unusual pain, lump or swelling anywhere in your body
  - Becoming more short of breath
  - A persistent cough
- ... once off?**
  - Coughing up blood
  - Blood in your pee

If you have...

**Tell your doctor**

The earlier cancer is found, the greater the chance of successful treatment.

**Cancer Symptom Checklist**

This plain language Checklist provides a list of the important general signs and symptoms of bowel, lung, prostate and breast cancer.

It is available in 2 sizes:

- DL (envelope size)
- A4 (poster)

**Find Cancer Early DVD**

This DVD includes six videos on how to find bowel, lung, prostate and breast cancer early, the common signs and symptoms of cancer, and what you should do if you find them. The videos are particularly aimed at people over 50, because cancer is most common in this age group.

In these videos, you can: watch cancer experts explain the signs and symptoms of each type of cancer; and find out the truth behind some of the common myths.
