

Project title	Priority-driven collaborative cancer research scheme
Project description	<p>The Priority-driven Collaborative Cancer Research Scheme is an innovative annual national research project grant funding scheme which brings together government and other funders to collaboratively fund cancer research in Australia.</p> <p>This funding scheme helps to: coordinate funding of priority-driven cancer research at the national level; foster collaboration between cancer researchers to build Australia's cancer research capacity; and foster consumer participation in cancer research, from design to implementation.</p>
Funding from CCWA	\$43,600
Fully supported	In the name of the Estate of Paulus Hoogendyk
