

Award	Cancer Researcher Career Achievement Award
Recipient	Prof Robert Newton
Prize	\$5,000
Recipient's Career	<p>Professor Newton, together with his team at ECU's Exercise Medicine Research Institute, has demonstrated that exercise can have a significant beneficial impact on reducing long-term health problems caused by cancer and its treatment.</p> <p>Through collaboration with Cancer Council WA and GenesisCare, his team provided the first exercise clinic co-located with oncology suites worldwide. This research has driven major change in clinical practice with the findings incorporated into international clinical guidelines including those of the American Cancer Society.</p> <p>Professor Newton is committed to mentoring young researchers; he currently serves on over 10 researcher advisory groups and is a reviewer for 39 scientific journals.</p>
