The five day Cancer Education Course aims to:

- Increase participant knowledge about cancer, prevention, early detection, treatment and the impact of disease to improve the care of people with cancer.
- Improve participant skills to provide support to clients with cancer and promote prevention and early detection messages in the community.
- Facilitate networks between Aboriginal health professionals and cancer support staff based in the metropolitan area.

You will receive:

- Nationally accredited certification - HLTAHW035 Provide information and support around cancer.
- Course registration.
- A participant booklet and study notes.

**Registrations close 5pm
Friday 28 August 2021**

Cancer Council Western Australia acknowledges the traditional Aboriginal owners of country throughout

Western Australia and pay our respect to them, their culture and their Elders past and present.

“The tour of the Cancer Centre at Sir Charles Gairdner hospital was a highlight... I now know the journey patients take when coming down for treatment. During the tour we got to see the radiation and chemo set up which gave me a sense of what my clients have to go through every 2 - 3 weeks.”
